**FOR EXTERNAL USE ONLY**

Night cream suitable for young skin. Its active ingredients (Ectoin and Aloe, Dog Rose and Mimosa extracts) protect against the effects of oxidative stress suffered during the day and at the same time stimulate the endogenous synthesis of the skin's support structures (Collagen, Elastin, Hyaluronic Acid), maintaining skin tone and elasticity. The biopolymer extracted from Carruba acts by forming a thin protective film which retains water on the surface of the skin reducing TEWL (Transepidermal Water Loss) and thus improving moisturisation.

DIRECTIONS: apply to skin before going to bed. Massage with circular movements until thoroughly absorbed.

Crema notte indicata anche per pelli giovani, grazie ai suoi principi attivi (Ectoina ed estratti di Aloe, Rosa Canina, Mimosa) svolge un'azione rilassante e lenitiva che dona al mattino una pelle sana, rigenerata e luminosa priva di imperfezioni e reazioni cutanee. Arricchita con biopolimero estratto dalla Carruba che migliora l'idratazione e l'elasticità cutanea.

Modalità di utilizzo: applicare sulla pelle del viso deterso prima di andare a dormire. Massaggiare con movimenti circolari fino al completo assorbimento.
